SUMMARY

Dedicated and detail-oriented Frontend Developer with six months of hands-on experience in building responsive, user-centered web applications using React.js, Next.js, and Tailwind CSS. Proficient in creating clean, maintainable code and intuitive interfaces that enhance user engagement. Skilled in translating UI/UX designs into interactive applications, with a strong understanding of responsive design principles. Continuously learning to stay updated with the latest frontend trends. Passionate about leveraging technical expertise to deliver impactful digital experiences.

PROJECT

Qualifit Nextgen AI Tool Web Application

- Created interactive scheduling and feedback components to improve user experience for scheduling interviews and viewing feedback in real-time.
- Designed routing and page transitions to create a seamless user journey, routing users from login to the jobs dashboard and the add job page on button interactions.
- Built user-friendly, responsive web applications using React.js and Tailwind CSS, ensuring compatibility and optimal performance across devices and browsers.
- Integrated RESTful APIs using axios in the Login Page and other components, enabling secure data handling and real-time information display within the application.

Shopee UI Project

- Developed a Shopee UI to enhance my skills in front-end development, focusing on creating a responsive and user-friendly interface that emulates the core features of Shopee's e-commerce platform.
- Built the user interface with HTML and CSS, ensuring a responsive design compatible across multiple devices for an optimal user experience.
- Utilized React to build reusable components for the header, product listings, and shopping cart, enhancing maintainability and modularity.
